Maggio

Alessandro Mendini

DESCRIPTION

Narrow and elongated, Maggio is an amusing chest of drawers crowned with a mirror with a diamond-shaped section, 2 pullout trays and 6 large drawers. It is created with an inlaid design on the front, achieved by combining three different types of wood – elm, oak and acacia – according to abstract geometric compositions that meld the points of the triangle with the curved contours of the circle in unexpected directions. With a maple interior, pliable brass, bronze and inox steel elements and the unexpected three-dimensionality in its profile, Maggio belongs to a small series of exquisite and collectible furniture, between art and design.

DIMENSIONS

W 23.6" x D 18.1" x H 61"

FEATURES

- finishes in elm, oak or acacia
- available with brass, bronze or inox steel inserts.
