# Modern Scrittoio

PIERO LISSONI

## **DESCRIPTION**

It is a solution conceived ad hoc for contemporary living areas, increasingly characterised by the need to also use vertical walls to obtain new surfaces for use: a writing desk surface with drawer, elegantly wall-mounted on a panel. It is a light and functional solution, combining the typologies of the desk, the closed container and the support surface and offering multiple possibilities for use. Available in the woods of Porro collection and in the matt and glossy lacquered colours of the sample collection.

## **FEATURES**

- Available in the quoted or in the towards right projecting versions
- Top — Honeycomb board overlaid with the sheet of the woods and matt or glossy lacquered in all colors of the collection
- Vertical panel — medium density particles board overlaid with the sheet of the woods and matt or glossy lacquered in all colors from collection

## **DIMENSIONS**

- 78.7"L x 23.6"D x 25.2"H (board - 48.4"H)
