Navy Officer Swivel Chair

Jasper Morrison

DESCRIPTION

To mark the occasion of the 1006 Navy Chair's 75th Anniversary, Jasper Morrison has given the upholstered Navy Officer Collection a fresh, light and modern update – prepared to be of service for the next 75 years. First introduced in 1948. As US Navy Officers were being redeployed off Navy Warships to land based facilities, they wanted a little more comfort than the ship board 1006 Navy chair provided. The Navy Officer Chair was born a bit bigger and a bit softer. Jasper Morrison has made this classic chair relevant for today, whilst remaining true to its original look, character and material - recycled aluminum.

Updates include: Proportions - refined shape/height and frame structure; The lower curve of the backrest has been straightened; Upholstery - slimmer profile of seat upholstery, H-stretcher removed.

DIMENSIONS

24"W x 24"D x 31-33.5"H x 18-20"SH
