# NJP Table

nendo

## **DESCRIPTION**

Designed by Oki Sato and nendo design studio in Japan in 2015, the NJP Table represents a modern take on the classic architect lamp.

The fixture emits a downward directed and glare-free light, which illuminates the desktop workspace clearly. The white painted inside of the shade reflects a diffused and comfortable light, and the opening at the rear of the lamp head not only ventilates the LED units, it also lets out a soft indirect light that glows up the arm, creating a soothing ambience.

The head of the table lamp is designed to provide optimal light direction and the original mechanism in the arm makes it flexible and smooth to adjust.

## **FEATURES**

- Available in white, Black or Light Aluminium Grey
- Powder coated

## **DIMENSIONS**

- 18.1"L x 17.7"H x 8.7" diameter base
