Norma

Pianca Studio

DESCRIPTION

Linear and minimalist, the new Norma bedroom furniture stand out for its square, clean-cut lines inspired by the sideboards bearing the same name. Uninterrupted, flowing surfaces elegantly distinguish these sleek cabinets. A slim panel wraps around the entire carcass which it conceals while creating continuous, clean-cut, square lines that are both modern and refined. Minimalist in every detail, Norma features a push-to-open mechanism designed to access the contents of its large and practical drawers. A vast assortment of finishes is available to embellish the outside of these cabinets: new leathers and bronze metallic glass add to the classic matt or gloss lacquers, glass, mirror, wood and stone of the collection.
