Nota Night Table

Philippe Tabet

DESCRIPTION

Strength and flexibility, solidity and lightness, simplicity and creativity. Philippe Tabet has designed a collection of casegoods for the bedroom which inhabits the overlap between opposing natures, with distinctively crafted contours and a combination of wood and glass. The top extends over the structure, which curves gently outwards on both sides to support it, like a tray that appears to float. A stylish and functional open shelf detaches from the top of the drawers below.
