Paradise Bird

Luca Nichetto

DESCRIPTION

PARADISE BIRD is based on a traditional stance that considers headboard and base separately. The actual connection is created through fluently integrated and supporting bedside trays. PARADISE BIRD manifests an attitude to life, an exciting interplay of freedom and retreat, openness and reassurance. Its self-assured design – perfectly balanced with exceptional hand-craftsmanship and superior comfort – is redolent of the effortless elegance of Viennese modernism. The light, sculptural metal frame conveys an impression of delicateness and delicate spacious impression, while providing a feeling of security like a nest. The integrated side tables in marble or walnut add a luxurious finishing touch.
