Petra

CTO Lighting

DESCRIPTION

Petra pendant light perfectly combines the delicacy and the strength of our natural world. A soft meteoric core of molten smoked glass or opal glass juxtaposed it with a second outer layer of thick curvaceous pebble-like shape in a tinted neutral pigment creating a depth of light and form. These refined translucent glass pendants can either be used as a singular statement light or in multiples to create a delicate display of lights that echo the rhythmic pattern evocative of pebbles on the beach.

DIMENSIONS

Ø15.7" x 8.5" x min 3.9" drop

Ø19.7" x 10.2" x min 3.9" drop
