# PH 5 Mini

Poul Henningsen

## **DESCRIPTION**

PH 5 continues to elevate even the most modern interiors, as does the PH 5 Mini with a top shade diameter of 30 centimeters, introduced in the spirit of Henningsen in 2017. Louis Poulsen wishes to cater to contemporary and creative living, and therefore has resized the famous pendant for the first time. In 2020, the PH 5 Mini Monochrome series is introduced to emphasize this striking design for a more contemporary look. The matte-painted metal shades come in black, white, and in ultra blue for the bolder decorator.
