Pilotis Outdoor

Rodolfo Dordoni

DESCRIPTION

Real one-off pieces due to the oxidation process they undergo, which makes each one different from the others, the Pilotis Outdoor coffee tables are conceived as solid volumes of pure geometry. Their name refers to one of the distinctive architectural elements of Rationalism, and indicates the slender columns on which the airy volumes of the Rationalist buildings would lie. Designed by Rodolfo Dordoni and made in Corten or Cobalt Blue color varnished stainless steel, the coffee table is available in two different heights, both with the same 27 cm diameter.

An original showpiece for open-air living areas and outdoor spaces.

FEATURES

- Structure: in stainless steel varnished Corten color effect or Cobalt Blue color effect
- The underside metal plate is varnished matt black
- Black ABS levelling feet.

DIMENSIONS

- Ø10" x 18"H>br> Ø10" x 22"H
