## Rada - Quick Ship

### **DESCRIPTION**

Understated style, inviting contours, softly combined. Rada is a bed with a flowing, intimate and delicate profile. The headboard curves backward gently, inviting total relaxation, yielding to its form. The bed appears to derive from a single pen-stroke, its curves flowing seamlessly into metal feet, in a supremely delicate yet natural contrast of materials. The upholstery is light and carefully measured, the product of Philippe Tabet's design style and the skilled hand of the master craftsman who created it. A metal frame combines with an aluminum alloy base, with a metallic or matt finish, in black and white. The headboard, available in two different heights, is made of polyurethane foam with a fixed fabric or leather cover.

### **QUICKSHIP OPTIONS**
