# Rod System

Piero Lissoni

## DESCRIPTION

Rod, characterized by slender back and light, airy shell, lined with inviting cushions enhanced with quilted details and buttons at sights, is now available in the modular version to build new spatial solutions and original compositions.

## FEATURES

- supporting structure in lacquered drawn tubular steel, seat sprung with coated rubber elastic straps and polyurethane foam
- backrest and armrest structure in self-supporting decorative HPL panel
- covering in 100% polyether, thermally bonded onto a polyamide velveteen backing
- backrest and seat cushions in prewashed and sterilized goose down, with polyurethane foam insert
- seat cushions quilted with buttons at sight or, on request, quilted without buttons
- armrest cushions in polyurethane foam covered with prewashed and sterilized goose down, with a poplar plywood supporting panel fixed to the frame by plug-in hinges
- stainless steel feet, polished or matt satin-finish, screwed to the base with a bushing
- fabric or leather upholstery, both fully removable by zippers and Velcro fastenings

## DIMENSIONS

available in a wide variety of dimensions and configurations
