Roger Bed

RODOLFO DORDONI

DESCRIPTION

With its minimal design and dynamic shape, the Roger bed picks up the same concept as the Roger seating system, both in its airy look and in the couture-style aesthetic of the headboard, quilted with sophisticated horizontal seams and trimmed with piping along the perimeter. Its versatility means it can be covered with all the fabrics and leather in the exclusive Minotti collection, making it the perfect addition to many different styles of night areas. The slender, suspended platform base is of sartorial design, covered in fabric or leather and decorated with sophisticated details and lapped seams: the leather bands of the structural base are sewn together using ribbons and crafted with the same technique used in the finest leather luggage-crafting. The bed, also proposed in the version with a leather bedstead and fabric headboard, offers absolute comfort, thanks also to the diagonal slant of the headboard, reminiscent of the Roger seating system, which facilitates the correct reading posture. Raised 13 cm off the ground, it sits on bearing blades in extruded aluminium with a polished Black Coffee-coloured varnished finish, set back from the perimeter of the bed.

DIMENSIONS

Available in a wide range of dimensions and configurations

FEATURES

- Available in wide range of Fabric and Leather
