SKYE

CTO Lighting

DESCRIPTION

Carefully thought to combine two levels of texture, Skye is both delicate and graphically strong, resulting in a pendant light that crowns the space with a strong silhouette and atmospheric warm light. An opal to clear sfumato glass finish, where the clarity of the glass at the base seems to turn gravity on its head. Particularly stunning when used in multiple combinations to give depth to a composition of scale and majestic proportions.

FEATURES

- Finishes:
satin brass with sfumato glass shade
dark bronze with sfumato glass shade
