DESCRIPTION

A calyx shaped metal shell is inhabited by carefully organized holes made by the technique of punching metal sheets. This creates delicate shapes that recall textile sensations and are robust enough to stand the test of time. Like a pair of leather boots, the chair changes organically with the use over time.

FEATURES

- made of aluminum
- available in a wide variety of finishes

DIMENSIONS

- W 21.7" x D 22" x H 31.4" x SH 17.3"
