Stan

Wittmann Workshop

DESCRIPTION

Bedrooms are all about relaxation. simply fall back onto the bed, pick up a book and let go. STAN is the perfect partner: its cushion-like and particularly informal headboard feels like a quilted bedspread has been draped over the top of it. but an informal and relaxed look only achieves what it sets out to do if experienced stylists are at play. Like in the world of fashion, it takes a great deal of quality and expertise to create this effortless look: the cover is fixed to the soft upholstery in several places using invisible stitching. Perfectly-positioned, precision stitching quietly ensures that everything remains in place. Typical Wittmann.
