Stony

Rodolfo Dordoni

DESCRIPTION

With its irregular shape and rounded corners, the Stony coffee table is inspired by pebbles, smoothed by the water of rivers, and it figures as a natural element in the landscape designed by the Outdoor Collection.

The inner structure is covered with a layer of resin, and then covered in stone powder, for a Basaltina effect.

It comes in three different sizes – small, medium and large – each with its own distinctive shape.

FEATURES

- The inner structure is covered with a layer of resin and stone powder for Basaltina or Terracotta effect

DIMENSIONS

- 16 1/2" x 12 3/4" x 13 3/4"H
