Storage System

Walter Knoll

DESCRIPTION

The Storage System is a system of modular storage elements – for executive offices, the conference room and also your home office. Closed as a cabinet with drawers and doors or open as shelving or a glass-fronted cabinet – a clear design for timeless elegance. Individual room concepts derive from the combination of functional elements and high-grade materials. Whether as an individual element, combined or in a sequence. Open to freedom and change, distinct as a tailor-made suit.

FEATURES

- base cabinets form the support for the top cabinets
- each base cabinet can be combined with one or more top cabinets to accommodate a maximum of 6 FH
- doors can be opened with a touch function, without handles
- doors of taller cabinets are fitted with door handles
- drawer elements are available to accommodate a single or a half-size FH and can be opened with a touch function, without handles

DIMENSIONS

- available in a wide range of sizes and configurations
