Sunray

Rodolfo Dordoni

DESCRIPTION

Sunray designs a new, open-air landscape where exquisite design and carefully researched comfort join forces to create an intimate, relaxing atmosphere.

With its enveloping design, the Sunray seating system is inspired by the desire to design situations that convey a sensation of intimacy and relaxation, in line with the concept of open-air living that imitates the comfort and beauty of indoor furnishing solutions.

Sunray is designed both to play a leading role in outdoor settings and to complement the other furnishing pieces in the collection.

It juxtaposes different shapes and materials: its airy surface in natural teak wood defines its horizontal line, while the curved backrest with interwoven cords gives it a dynamic allure.

DIMENSIONS

Available in a wide range of dimensions and configurations
