Superquadra sideboard

Marcio Kogan / Studio Mk27

DESCRIPTION

The storage units in the Superquadra family by Marcio Kogan / studio mk27 are of different sizes and are intended for a variety of uses, yet they all share the same minimal design, the same style – somewhere between classic rationalism and a contemporary vibe – and the same floating aesthetic, which endows them with an airy, suspended appearance. The sideboard is available in several sizes and heights, starting from the dining, living/TV and cabinet versions. In the first two variants, the body of the unit rests on a solid wood base. Sporting volumes of different sizes, it comes equipped with drawers, all with handles in a polished varnished Brandy-coloured finish. The bearing structure of the dining and living/TV storage units is in Dark Brown stained rosewood with matt polyester lacquered finish, or in Black lacquered open-pore ash, and sits on feet with a polished Brandy finish. In addition to Dark Brown stained rosewood with matt polyester lacquered finish or Black lacquered open-pore ash, the storage elements for the dining and living/TV units are also available in a glossy, lacquered Moka-coloured version. The cabinet, with its pure and geometric shapes, emphasizes the sophisticated combination of materials, creating a refined contrast between wood, varnished aluminum and glass. All these elements host the same materials and proportions inspired by the elegant rationalism, characterizing the mood of the Brasilia range, and indeed the overall style of Marcio Kogan / studio mk27.
