Taiko

nendo

DESCRIPTION

Designed by the Nendo studio, this side table is an icon of refined simplicity.

Taiko presents the solid materiality typical of the Minotti manufacturing style: it is made of cast aluminium with a Bronze or Black Coffee varnished finish and comes in two versions, both with oval-shaped tops: one version has a more generous surface, but a lower height, ideal for a lounge situation, while the other has a smaller surface, but is taller in height.

Taiko is the perfect furnishing accessory for both a classic lounge situation and a modern informal dining context and ideally fits in both indoor and open-air spaces, ensuring chromatic and stylistic continuity with the other furnishing pieces in the Minotti collection.

FEATURES

- Available in varnished polished Bronze or Black Coffee colour finish
