

# minima

# Thebe

Paolo Piva

## DESCRIPTION

The cult of the simple: The rectangular cross-section of Thebe is simple, but extremely effective. It is a modern headboard that provides substance and stability. Its volume is particularly evident in spacious bedrooms. At the same time, Thebe decreases in height and is therefore suitable for low rooms or even roof slopes. In the generous version, Thebe can be equipped with an extremely clever leather tray which can be simply clamped over the body of the bed and positioned as desired.

## DIMENSIONS

Bed heights: 29", 33"

## FEATURES

- The bedhead can be combined with various bases, inserts and mattresses
- The cover is detachable
