Torii

Rodolfo Dordoni

DESCRIPTION

Airy, with constructive details linked to Japanese tradition, the Torii modular seats play with round-edged volumes, thin profiles and the apparent formal simplicity of an extremely detailed design.

The metal structure of the legs of the seats and tables is Nendo's nod to the image of the "torii", the entrance gate to Shinto shrines in Japan.

With an interlocking game, the horizontal elements are laid on the vertical supports, ensuring a sophisticated visual lightness that accommodates the padded volume, characterized by couture craftsmanship.

The Torii family includes sofas – with high or low backrest and linear shape, rounded at the arms – inclined sofas with a combination of two different depths, armchairs and lounge and dining little armchairs, ottomans, coffee tables, and a slender, oval-shaped console table, ideal for placing anywhere in the living area.

FEATURES
