Torii Bold Armchair

Nendo

DESCRIPTION

Torii Bold is characterised by the contrast between the large, softly rounded volumes of the upholstery and the lightness of the metal base structure on which it rests.

A family of seats created from the original iconic Torii design by Nendo studio, that retains the morphology of the backrest unchanged, while presenting a more solid and compact aesthetic: the two families dialogue harmoniously with each other in a clever interplay of full and empty volumes.

The slim backrest is punctuated by a vertical quilting effect and piping, in eco-leather or eco-nubuck, that outlines the perimeter of the upholstery: sartorial details that emphasise the couture aspect of the craftsmanship.

The feet, embellished with a small jewel-like button, preserve the interplay of vertical and horizontal elements inspired by the typical traditional Japanese manufacturing details from which the family takes its name, and accommodate the upholstered volume of the sofas and armchairs.

The armchairs, are available in a fixed or swivel version, the latter with a curved metal base that conceals the swivel mechanism.

FEATURES

- upholstery available in a range of fabrics or leathers
- sofa and ottoman available

DIMENSIONS

- W 37" x D 37" x H 32.25"
