

MINIMA

TORII NEST OUTDOOR

NENDO DESIGN

DESCRIPTION

Designed for indoor environments in 2020, Torii Nest migrates to open-air living spaces, in the armchair, lounge and dining little armchairs versions. With structural details linked to Japanese tradition, the seats play with round-edged volumes, thin profiles and the apparent formal simplicity of an extremely intricate design. The varnished tubular steel frame of the backrest is covered in woven cord in the shades Ecu and Dark Brown, sporting a design inspired by Vienna straw, but with a larger mesh. It sits on a base in natural teak or Dark Brown stained mahogany, supported by varnished aluminum legs with a polished, Bronze-coloured, anti-touch finish. With its backrest in the shape of a perfect circle and a sophisticated visual lightness that embraces the padded seat, Torii Nest Outdoor was conceived to meet various requirements, in terms of both functionality and ergonomics. The three types are available in the fixed and swivel without return versions, thanks to a tried and tested mechanism, a novelty for the outdoor environment.

FEATURES

DIMENSIONS
