Wisp Relief

Minotti Studio Design

DESCRIPTION

A bas-relief design, underlining the bold expression of the curved lines and different thickness of the pile, animates the Wisp Relief rug with interesting three-dimensional chiaroscuro effects.

The original pattern, developed in macro form to cover the entire rug, was designed by Minotti Studio as proof of the brand's ability to decorate spaces. It expresses the Seventies inspiration on which the 2019 Collection is founded, in a style that encompasses a dynamic blend of curves, ellipses and wavy lines.
