Yuh Table

GamFratesi

DESCRIPTION

The Danish-Italian designers GamFratesi developed the minimalistic Yuh table lamp together with Louis Poulsen in 2017. The fixture emits a downward directed and glare-free light with a shade that can be adjusted to optimize light distribution. A small opening at the top of the shade allows a soft upward light, adding to the atmosphere.

Created from a circular shape at the bottom to a linear opening at the top of the shade, the Yuh is both flexible and takes up little space. It can rotate, raise and lower illumination, creating ambience in any space. A button on the upper part of the tube acts as a switch and provides stepless dimming at 15-100%. Furthermore, a timer can turn off the light automatically after 4 or 8 hours, and allow it to be turned back on at a fixed light level

FEATURES

- White or black: Matte wet painted. Brass/Marble versions: White or black shade matte wet painted. Brushed brass stem, clear lacquered. Matte marble base.

DIMENSIONS

- 24"H, 7.9" diameter
